

# AQUAEXCEL

## AQUAculture infrastructures for EXCELlence in European Fish research

---

### Work Package 1. Overall Management

The overall management of the AQUAEXCEL project will utilize the project management expertise of two partner institutions (partner 1 INRA and 17 INRA Transfert) together with the expertise of WP leaders.

The overall management plan designed by this project is aimed at achieving three main objectives:

- ❖ Monitoring results to control their scientific quality regarding the fulfilment of the planned objectives, quality of the result, timing, spent resources and worldwide state of the art;
- ❖ Efficiency of the organization setup to support the project, with special attention paid to financial, logistics, information, coordination issues, quality and conformity to EC rules and procedures;
- ❖ Prepare the financial and technical reports for the Commission.
